The March number of the U. S. Magazine is before us. This magazine presents one of the most elegant specimens of magazine lit erature that has fallen under our notice. Peterson's Magazine, for April is one of the finest numbers that has greeted us since our acquaintance with this invaluable Magazine There is not a magazine extant, that strives harder to please the Ladies; and we are safe in saying that it has accomplished this herculean task. GOVERNOR CHASE'S MESSAGE IN NEW OF-LEANS.-The New Orleans correspondent of the mere notions are the injurious effects of tea to his daily business. The Bitters are, consequently, in Ohio State Journal gives the following description of the reception of Governor Chase's mes-

sage in the south;

I am just from the reading room of the St Charles where I had the pleasure of seeing the message of Gov. Chase, in a Cincinnati paper. It was curious to see how eagerly it was scanmed over, and its contents inquired after, by the various gentlemen who happened to be present from different parts of the south. The position of Chio. as a leading republican State. and particularly Gov. Chase, who has long been known as one of the ablest anti-slavery men of the country, very naturally attracts the attention of southern politic ians and readers. Few men have been more bitterly assailed than Mr. Chase, in consequence of his manly opposition of slavery. And yet he is not without his admirers here, as frequent little discussions show. And the present was not with out its testimony to the same effect. A grave old man, after wading through column or's statement of the financial affairs of the State, is search of 'treason," very safely remarked as he pushed as de the paper, 'I see pething terrible in that message."

A shrewd business man who was present, re marked, if southern Governors would pattern, it would be more credit to themselves, as well add vastly to the interests of the southern people. He thought that the people of Ohio had showed their good sense in selecting a man competent to look after the interests of the State, On the whole it was agreed, that whatever might be said of the Governor's polities, Ohio had the ablest Chief Magistrate of any State in the Union. And this reminds me of a remark made to me some time since, by Judge W. of one of the western parishes of this State. Said he, "I have watched the course of Mr. Chase very carefully since he first took his seat in the United States Senate: and, although I have no sympathy with his anti Slavery sentiments, yet I regard him as second to no man in the nation for ability and stern integrity. He is a man of great independence of mind, and has the moral courgae to do what he believes to be right, regard- may deem proper. less of popular favor." "And this," said he, is what cannot be said of too many of your northern public men."

I think that it is demonstrable that a single oup of weak tea or coffee at a meal, especially in cold weather, and most especially in persons of a weakly habit or constitution, is far more

Tea and coffee doubtless do injure some people-that is, some persons may not be able to drink them without its being followed by some discomfort; so will even water, if used too freely; and I think it will be found that, in nearly every such case of uncomfortableness after a cup of tea or coffee, this condition of things has been brought about by the too free use of these articles, or that the tone of the stomach

has been impaired by improper eating. Man is styled an omniverous animal--an animal eating everything. No created animal can eat and drink, without discomfort, half the articles consumed by man. Jan 15, 1857,-1v. Another Trial Test of Corn and Cob Mills. he Little Giant Victorious.

The following is from the Indianapolis Journal: TRIAL OF MILLS,-We were yesterday invited to witess a trial of the merits of the Corn and Cob Mills.
Attitle Giant, Star Mill. and Excelsion Mill. A bushel and a half of ear corn was ground into feed by each, the "Little Giant" doing it in 34, the "Star in 57, and the "Excelsior" in 69 revolutions. The time occupied by each mill in grinding, was in about the same pro. portion. The mills were all turned by the same horse, and managed by the same persons, and every in seemed to be fair and equal. After the "Little Giant" had ground out her corn, a lot of stones, smong them one or two hard flint, the size of a hen's eggs, were thrown in and ground up, to show, as Mr. Hedges re-marked, that no 'ordinary' accident could prevent is from doing its duty. The stones were crushed to powder without injuring the mill in the least. There were a great many people present at the exhi-bition, among whom were several Representatives, and all gave a decided preference to the "Little Giant" F. Weston, of Augusta, Carroll county. Obio, would

respectfully inform the Stock Feeders of Carroll, Stark Columbiana, Tuscarawas and Mahoning counties, that he is the controlling agent for the Little Giant Corn and Cob Mill, in the above named counties, and is now prepared to fill all orders addressed to him at the above place.
